BrowXenna[®] Shape & Colour Course

Module Breakdown

Module 1: Brow Architecture

Gain a deep understanding on how to create a set of symmetrical brows based on your customer's facial features, bone structure and proportions.

You'll be able to:

- Identify control points on the face for brow architecture
- Analyse your customer's existing brow shape and provide recommendations
- Work with facial asymmetry

Module 2: Brow Henna

Learn the contraindications of henna application, how to work on complex eyebrows and mistakes to avoid during the application procedure.

You'll be able to:

- Suggest henna shades for your customer based on their skin tone and hair colour
- Recommend and suggest aftercare steps
- Create customised henna mixtures
- Calculate and Price your Services

Module 3: Application Practice

Be confident in combining Architecture and Henna application to work on clients. Leverage on our Master Trainer's expertise and gain insightful practical tips and tricks.

You'll be able to:

- Design a set of perfect brows based on your customer's facial features
- Select, mix and apply brow henna
- Create defined brows with henna
- Perform the entire service steps confidently
